MEMORANDUM FOR: Deputy Director for Intelligence
FROM: Director of Central Intelligence
SUBJECT: The Philippines

I had a talk with a very knowledgeable person who just returned from the Philippines who brought some information to my attention on which I think we should task our best forces for confirmation and on which I also think we should undertake some analytical work. The basic facts to be looked at are these:

- Marcos' health - losing his health so rapidly as to be suggestive of chemotherapy.
- Corruption is becoming more and more widespread.
- Creation of an executive council, possibly as an instrument for controlling and developing the succession.
